

Clark County Engineering Services Division

Fee Summary for Development Stormwater and Transportation Inspection

Regular Inspection Fees

Chapter 6.110A of Clark County Code covers Development Engineering Fees. This chapter specifies stormwater and transportation inspection fees in Table 6.110A.030. These fees cover the cost of regular inspection services associated with such projects and are paid by the applicant at the time of engineering plan submittal.

Fees in addition to Regular Inspection Fees

Costs for inspection outside of normal working hours and for re-inspection are in addition to regular inspection services. Fees for these services are addressed in Section E of Table 6.110.030 and are charged to the project contractor on a cost recovery basis.

Definitions

- **Cost Recovery Basis** – Fees based on recovery of actual cost to the County for inspection outside of normal working hours and/or for re-inspection. Actual costs are wages and benefits for employees performing work plus overhead at the rate of 30%. Fees for inspection outside normal work hours will include overtime wages at one and a half times the normal wage rate and may include costs specified by union contract if the “call out” provision applies.
- **Re-inspection** – Any inspection over and above the first two (the initial and a follow up inspection, if necessary) for each phase of construction are considered re-inspection. Time charged to re-inspection includes time spent on travel, inspection and record keeping.
- **Normal Working Hours** – Normal work days are Monday through Friday between October 1st and April 30th. Hours are 7 AM to 3:30 PM. Between May 1st and September 30th hours are 7 AM to 4 PM with limited provisions for extended hours. Time charged to inspection outside of normal working hours includes time spent on travel, inspection and record keeping.
